Personal Portfolio : <https://iiseefii.github.io/Portfolio/>

A Computer Science graduated with a minor in Data Science, passionate about data analysis data analysis and database design. Skilled in Excel, SQL, Python, and Power BI. Eager to apply analytical and problem-solving skills in real-world projects to gain professional experience as a Data Analyst.

EDUCATION

Bachelor of Computer Science , Minor in Data Science | High Institute of Computer Science & Information System (Culture & Science City)

Graduation : June 2026

- Active member of the Computer Science Department
- Data Analysis Diploma (70 hours) – Smart Investment Solution (SIS)
- Relevant coursework: Database Systems, Data Mining, and Software Engineering

EXPERIENCE

Personal Data Analysis Projects |Self-Learning
June 2024 – Present

- Built interactive dashboards using Power BI and Excel to analyze sales and marketing data
- Cleaned and organized large datasets using SQL and Python (Pandas)
- Applied data visualization techniques to extract insights and trends
- Improved reporting accuracy by automating calculations and summaries

Academic Projects | High Institute of Computer Science
2024 – Present

- Conducted multiple data analysis projects using real-world datasets
- Utilized Python, SQL, and Power BI for data cleaning and visualization
- Designed a Sales Performance Dashboard using Power BI to track revenue trends and KPIs
- Analyzed Customer Behavior Data with Python (Pandas, Matplotlib) to identify key purchasing patterns

SKILLS

- | | |
|--|--|
| • Microsoft Power BI | • Tableau |
| • SQL (SSMS) | • Data cleaning & organizing |
| • Python Libraries | • Strong attention to detail and organizational skills |
| • Microsoft Excel (formulas, pivot tables) | • Fluent in English |
